Petition of the Office of Regulatory Staff  
To Establish Docket to Consider  
Implementing the Requirements of Section  
1307 (State Consideration of Smart Grid)  
and Section 532 (Energy Efficiency  
Programs) of the Energy Independence and  
Security Act of 2007

Nucor Steel-South Carolina (“Nucor”), a Division of Nucor Corporation, pursuant to Rule 103-825 of the rules and regulations of the South Carolina Public Service Commission (“Commission”), hereby respectfully petitions to intervene in the above-captioned docket. Nucor states the following grounds in support of this petition:

1. Nucor owns and operates a steel production facility near Darlington, South Carolina and is a customer of Progress Energy Carolinas, Inc. (“PEC”) (formerly known as Carolina Power & Light Company (“CP&L”)). Nucor purchases hundreds of millions of kWh of electricity annually from PEC at a cost of millions of dollars a year. Since the cost of electricity comprises one of the major costs of Nucor’s manufacturing process, electric costs directly affect Nucor’s ability to continue to produce steel at a competitive price. Since 1987, Nucor has actively participated in many PEC and CP&L fuel and rate proceedings before this Commission.

2. This docket has been established in response to the Office of Regulatory Staff's Amended Petition to Establish a Docket to Consider Implementing the Requirements of Section 1307 (State Consideration of Smart Grid) and Section 532 (Reregulation of Electric Utilities).
